The Millennium Group's Fully Managed Digital Mail Solution For Remotely Handling Your Postal Mail!

As the COVID-19 pandemic forces many employees to work from home, your organization can still safely access mail. The Millennium Group's (TMG's) Digital Mail solution is the easiest way for you to manage your mail, so that you can focus on what really matters, staying home, staying safe and germ-free.

TMG provides world-class digital mail scanning solutions that allows individuals to view their postal mail online, right from their homes. When your mail arrives, we scan the envelope and contents, then you tell us to scan the contents, shred it or return it.

You Read It Online. Anytime. Anywhere.

HOW IT WORKS:

We pick up your mail at the Post Office, or received it from you

We open, extract and digitize both envelope and contents

Mail is directed to individual email addresses or departmental shared drives

We forward as directed, store, or destroy hardcopies

WHY CHOOSE US?

Reliability.

We understand that everyone is going through an unparalleled time in our world. Our streamlined process assures that you have access to your mail without ever leaving the premises of your home. We're open for business when you are, and where you are.
